AND MECHANICAL ENGINEERING
VOLUME 1 NO. 1 FEBRUARI 2024**

FOCUS AND SCOPE OF THE JOURNAL

International Journal of Industrial Innovation and Mechanical Engineering. This journal is published by the Indonesian Engineering Science Research Association. This journal is a peer-reviewed and open research journal from the Engineering Science Clump. The fields of study in this journal include the Civil Engineering and Spatial Planning, Engineering, Electrical and Computer Engineering, Earth and Marine Engineering subgroups. Submitted articles will go through a selection process for bestari partners and/or editors. This journal is published 4 times a year (**February, May, August, November**)

Articles published in the Publication Center for Community Service Results include original scientific research results (top priority), new scientific review articles (not priority), or comments or criticism of existing writings. The Center for Publication of Community Service Results accepts manuscripts or articles in fields of science including Civil Engineering and Spatial Planning, Engineering, Electrical and Computer Engineering, Earth and Marine Engineering, from various academic circles and researchers both nationally and internationally.

The articles published in the journal are articles that have gone through a review process by Mitra Bebestari (peer-reviewers). The Publication Center for the **International Journal of Industrial Innovation and Mechanical Engineering** only accepts articles originating from original research results (top priority), and new scientific review articles (not priority). The decision whether or not to accept a scientific article in this journal is the right of the Editorial Board based on recommendations from Mitra Bebestari.

JOURNAL INDEXATION INFORMATION

International Journal of Industrial Innovation and Mechanical Engineering with e-ISSN :3047-4515 and p-ISSN :XXXX-XXXX <https://international.aritekin.or.id/index.php/IJIIME> is a peer-reviewed journal which plans to be indexed in several reputable indexers, including: **Google Scholar; Digital Reference Guard (GARUDA), Directory of Open Access Journal (DOAJ).**

FOREWORD

International Journal of Industrial Innovation and Mechanical Engineering. This journal is published by the Indonesian Engineering Science Research Association. This journal is a peer-reviewed and open research journal from the Engineering Science Clump. The fields of study in this journal include the Civil Engineering and Spatial Planning, Engineering, Electrical and Computer Engineering, Earth and Marine Engineering subgroups. Submitted articles will go through a selection process for bestari partners and/or editors. This journal is published 4 times a year (**February, May, August, November**)

The Center for Publication of Community Service Results publishes the only paper that strictly follows the guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer review process. The paper is read by editorial members (according to their area of specialization) and will be screened by the Managing Editor to meet the criteria required for publication. The manuscript will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. The Publication Center for the International Journal of Industrial Innovation and Mechanical Engineering has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision based on the reviewers' comments or suggestions.

Reviewers provide an assessment of originality, clarity of presentation, contribution to the field/science. This journal publishes research articles, review articles/literature studies, case reports and concept or policy articles, in all fields of science, including Civil Engineering and Spatial Planning, Engineering, Electrical and Computer Engineering, Earth and Marine Engineering. The articles that will be published are original works and have never been published. Incoming articles will be reviewed by a team of internal and external reviewers.

The Editorial Board will continue to strive to improve the quality of the journal so that it can become an important reference in the development of science. The deepest appreciation and thanks to Mitra Bestari together with members of the Editorial Board and all parties involved in publishing this journal.

Regards,

Chief Editor
