**VOLUME 1 NO. 4 DECEMBER 2024**

**FOCUS AND SCOPE OF THE JOURNAL**

**International Journal of Mechanical, Industrial and Control Systems Engineering** [e-ISSN : 3047-4566, p-ISSN : 3047-4558]. This journal accepts manuscripts based on empirical research results, new scientific literature review, and comments/ criticism of scientific papers published by **International Journal of Mechanical, Industrial and Control Systems Engineering**. This journal is a means of publication and a place to share research and development work in the field of Mechanical, Industrial and Control Systems Engineering.

Articles published in **International Journal of Mechanical, Industrial and Control Systems Engineering** are processed fully online. Submitted articles will go through peer review by a qualified international Reviewers. Complete information for article submission and other instructions are available in each issue.

**International Journal of Mechanical, Industrial and Control Systems Engineering** publishes 4 (four) issues a year in **March, June, September, December**, however articles that have been declared accepted will be queued in the In-Press issue before published in the determined time.

**FOREWORD**

**International Journal of Mechanical, Industrial and Control Systems Engineering** which has E-ISSN number: 3063-8445; P-ISSN: 3063-9514. **The International Journal of Mechanical, Industrial and Control Systems Engineering**, is published four times a year. Editors accept scientific articles, research results, and their ideas and applications in the field of Mechanical, Industrial and Control Systems Engineering.

**The International Journal of Mechanical, Industrial and Control Systems Engineering** published the only paper that strictly followed the guidelines and templates for the preparation of the manuscript. All submitted manuscripts will go through a double-blind peer review process. The paper is read by the editorial board (according to the area of specialization) and will be screened by the Managing Editor to meet the criteria required for publication. Manuscripts will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. **The International Journal of Mechanical, Industrial and Control Systems Engineering** has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision on the reviewer's comments or suggestions.

Reviewers provide assessments on originality, clarity of presentation, contribution to the field/science. This journal publishes research articles with Science in the field of Mechanical, Industrial and Control Systems Engineering. Other relevant fields. The article to be published is an original work and has never been published. The entry article will be reviewed by a team of internal and external reviewers.

The Editorial Board also expects scientific articles from readers to be published after going through a review process by the Editorial Board and/or Bestari Partners.
